

Details of the CARES Act and how churches can benefit.

In addition to a \$10,000 grant that's available right now, churches and other non-profits can apply for a loan equaling 2.5x the average monthly personnel expenses. And that loan can be forgivable if you meet the qualifications.

Bottom line: This is very real and significant help and we'll show you exactly what to do.

There's some misinformation out there about how the relief package works, so I encourage you to watch the webinar and follow the three specific action steps recommended at the end. It will likely mean thousands of dollars of help to your church.

We added the webinar resources to our [Resources Page](#):

- The replay video of the CARES Act webinar
- A PDF handout that summarizes the benefits
- A calculator to help you compute your benefits

Plus, we put together a 50-page resource to help you navigate the new reality facing our churches. That's on our [Resources Page](#) as well.

The COVID-19 Response Guide has information on livestreaming, tips for talking about money and generosity, ideas for ministering to your community, and more.

There are also some videos on this page to give you quick bursts of help.

[You'll find all of these resources on this page.](#)
